

UTLWANANG MOAGAESI

Morokweng 8614, South Africa | **Mobile:** 060 753 1009 | **Email:** utlwanangmoagaesi91@gmail.com

PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Engineering graduate from Cape Peninsula University of Technology. With a strong foundation in electronics, process control, and system analysis. Experienced in troubleshooting and problem-solving through academic projects. Knowledgeable in industrial automation using TIA portal, as well as networking concepts such as subnetting, VLANs, inter-VLAN routing, network layers and endpoint security. Familiar with Java, C, C++ and Arduino. Strong problem-solving skills, a quick learner and keen interest in continuous improvement. Seeking an entry-level opportunity to contribute technical expertise and grow within a dynamic engineering or professional setting.

CORE COMPETENCIES

- Strong analytical and problem-solving skills
- Team collaboration and effective communication
- Adaptability and ability to work under pressure
- Attention to detail and accuracy
- Technical adaptability

EDUCATION

Diploma in Computer Engineering

Cape Peninsula University of Technology

relevant coursework:

- Electronics, Process Control, Microcontroller Systems
- System Analysis, Electrical Engineering, Software Development
- Mathematics, Physical Science, Computer Skill

National Senior Certificate

Setswakgosing Secondary School

TECHNICAL SKILLS

- Microsoft Office Suite, MATLAB
- Report writing and analysis
- Network Configuration and Subnetting (Cisco Packet Tracer)

PROJECTS AND HANDS-ON EXPERIENCE

Academic Project: Network Configuration and Subnetting

- Configured and implemented subnetting for a digital communication system using **Cisco Packet Tracer**.
- Designed and tested network topologies to ensure efficient data transmission and system reliability.
- Gained practical experience in network troubleshooting, IP addressing, and routing protocols.

Academic Project: water level control Systems

- Designed and implemented a water level control system for process control.
- Gained hands-on experience with troubleshooting and system diagnostics.

LANGUAGES

- English (Fluent)
- Setswana (Fluent)
